

Rides Mass Transit District
Jackson County Mass Transit District
FY 2023 Program of Projects (POP)
Carbondale UZA

General

Rides Mass Transit District (RMTD) is the public transportation provider for the Williamson County portion of the Carbondale Urban Area with routes to Carbondale and direct recipient of Federal Section 5307 funding. Jackson County Mass Transit District (JCMTD) provides service in the other portion of the UZA, the City of Carbondale and is also a direct recipient. Funding is allocated through a population-based formula for base 5307 and on a percentage of contribution toward performance measures basis for Small Transit Intensive Cities (STIC) funds by the Southern Illinois Metropolitan Planning Organization. In Federal FY 23 Rides (RMTD) will receive 58% on population and approximately 73% of STIC for a total of \$1,509,312. RMTD also has approximately \$760,000 of 5307 CARES stimulus funding. Jackson Co. (JCMTD) for the City of Carbondale will receive 42% of the base and approximately 27% of STIC for a total of \$814,918. JCMTD also has approximately \$1,550,000 of 5307 CARES stimulus funding.

Section 5307 Project TIP# RMTD-22-01 for IL FY 2022

RMTD will utilize \$1,509,312 of Federal 5307 FY 2022 apportioned for operating assistance in IL FY 2023. The RMTD overall budget for proposed service levels is \$3,226,000 and derived from federal, state and local RMTD funding sources:

RMTD Local - \$202,292 (includes fare revenue)

State - \$1,514,396

Federal \$1,509,312

The projected program will allow for 50,316 service hours of operation and provide 246,660 unlinked passenger trips. This represents an expansion of urban services offered. More budget detail can be found in exhibit A.

Section 5307 Project TIP# JCMTD- 20- 1 for IL FY 2020

JCMTD will utilize \$581,987 of Federal 5307 FY 2020/2021 funds apportioned for operating assistance in IL FY 2023. The JCMTD overall budget for maintaining existing service levels is \$1,340,560 and derived from federal, state and local JCMTD funding sources:

JCMTD Local - \$413,072 (includes fare revenue)

State - \$345,501

Federal – \$581,987

The projected program will allow for 19,877 service hours of operation and provide 53,305 unlinked passenger trips.

Federal funding is an important part of financing for these projects. Service levels would be greatly reduced without Federal participation.

Service Plan

RMTD and JCMTD provide services via deviated routes and zoned point deviated services. Generally, services are provided door to door as required. Deviated routes will deviate up to 1 mile off the scheduled path. Zoned services cover entire communities. The Rides Plus Call Center can be reached at 844-220-1243 to make reservation on either provider. Riders can also contact JCMTD dispatch at 618-549-0304. Passengers can schedule a pickup at their home or other location. Passengers returning home or continuing to another destination may access a bus at any designated stop location or call for a pickup if not prearranged. Stop locations are available on route maps.

RMTD will also be providing fixed routes across the City of Carbondale and similar services connecting the communities making up the Williamson County portion of the UZA. Scheduled on 15-minute, 30-minute and 60-minute headways, services and stops are detailed on route maps. JCMTD and RMTD will continue to provide the current level of comprehensive flexible service open to all citizens during all required periods. These services provide required paratransit functions.

The general deviated service description also applies to rural areas of Williamson County and Jackson County. These services are provided under the Section 5311 program and are not part of the RMTD/JCMTD urban POP process.

Rides Fixed Route Service Plan

RMTD plans to add fixed route service in the Urban area. The population across the Urbanized area, has increased, and when looking at the Population Density map, the highest concentration of persons per square mile are in the cities of Carbondale and Marion.

Carbondale posts a population of around 22,000 residents. Of that 62 percent are White, 27 percent are Black or African American, 5 percent are Asian, 5 percent are Hispanic, 3 percent are two or more races, and the remaining 2 percent are some other races. The population breakdown between male and female is relatively even with males making up 51 percent of the population and females' 49 percent.

Marion, Illinois posts a population of around 15,000 people. Of that, 84 percent are White, 10 percent are Black or African American, 1 percent are Asian, 2 percent are Hispanic, 1 percent are two or more races and below 1 percent are some other races. The population breakdown between male and female is relatively even with males making up 49 percent of the population and females' 51 percent.

Based on the Southern Illinois Metropolitan Planning Organization's (SIMPO) Transit Service Guidelines, the density of the population living in both Carbondale, and Marion meets the requirements needed for providing fixed route service. By providing a fixed route service in these population dense areas, RMTD can better utilize resources to increase the level of service.

RMTD has a signed intergovernmental agreement with Southern Illinois University-Carbondale (SIUC) to provide transit service across SIUC's campus, as well as the urbanized area, for SIUC students and others of the general public. RMTD plans on continuing to run fixed-route service as has been provided in the past, which consist of five weekday routes and two weekend routes while school is in session, and two summer routes when school is not in session. Additional Break Routes operate fixed route service seven days/week when no classes are in session. Table 1 show each route with the days and times the route runs.

*	Mall Route	Sun	12:30 p.m.	6:24 p.m.
* Regular academic year routes will begin four days prior to the start of the fall semester. The regular academic year routes consist of five weekday routes and two weekend routes while school is in session.				

In addition to running these fixed routes in Carbondale, RMTD has a fixed route that serves as a connection between Marion and Carbondale six days/week that share common stops with the fixed routes being run in Carbondale. By using these common stops as transfer points RMTD can provide fixed route service between Marion and Carbondale.

	Route Name	Days Route Runs	Start Time	Stop Time
	Marion to Carbondale	Mon - Fri	7:05 a.m.	6:08 p.m.
	Marion to Carbondale	Sat	11:15 a.m.	5:05 p.m.

While the Carbondale and Marion areas have reached a population density that make running fixed routes effective, the majority of RMTD's service area is sparsely populated and spread out. So, in addition to the fixed route service, RMTD will continue to deploy deviated and point deviated routes to serve Williamson County and the Urbanized area. These deviated and point deviated routes will provide door-to-door service. This transportation service is available to all persons, including those with physical or cognitive disabilities that make it impossible to use fixed-route service. Twenty-four-hour notice to schedule a reservation is recommended, but not required. These deviated routes will share common stops/transfer points with the fixed routes. The combination of these routes allows RMTD to cover a large service area, with a fixed number of resources, and provide a maximum amount of rides. Within this, RMTD also operates a flexible, Microtransit program which allows passengers to either call for a reservation request or book a ride request via a mobile application at throughout the late evening Monday-Saturday. RMTD is also in the planning phase of bringing fixed route coverage to Marion and will work with the public and local officials to best phase in the fixed route coverage to the city while still offering complementary paratransit services.

RMTD Dispatch and Service hours

Dispatch service is available from 6 a.m. – 6 p.m. Monday-Saturday. Bus service is available seven days per week. Night service is available Monday-Saturday until midnight but must be pre-arranged during dispatch hours or accessed at a designated stop or by request during microtransit hours. Service is available on Sunday, but must be pre-arranged during dispatch hours or accessed at a designated stop.
